We are working with company DONE! Deliveries for a long time and we are very satisfied with the quality and also the reactivity of people working in this company.

Delivery time is always respected and this company has always a solution to propose.

We / Rotra are very happy with your cooperation as a new partner.
Your solutions are competitive (not always, but mostly).
We get a quick answer to a new request,
as well Delivery Info when it has been delivered.
(Remark on the „normal deliver sheet of you“
we cannot see who has signed as well what time!!!)
Let's hope we will cooperate together in the future.

The reasons for that are very simple:

- ✓ *politeness*
- ✓ *competitive rates*

Me and our company are very happy to work with you.

Our freight advisor is very sensible and open mind in order to listen to our needs, and always find a solution for 99.6% in 11 minutes, which permit us to reply to our customer.

He is very available, always happy on phone and very polite.

All my colleagues think the same and the same for people which replacement him when he is out of office.

I hope you will have the same high-quality level for the future because we really need to work with partners like you.

Many thanks for all!

- ✓ *Almost always solutions for express deliveries (but not only) throughout Europe.*
- ✓ *Price mostly reflecting the market and especially with always a possibility of loading when we confirm the transport.*

It is a pleasure to have a partner like DONE! Deliveries.

I also love your abilities to integrate the „new“ technologies within your services.

Your triple mails „*order: accepted, loaded, delivered*“ is something that, when our IT department allows it, we want to integrate ourselves to give more service to our clients. Also, the GPS map with all the location of all vehicles is something very useful for a company like mine.
